

Universal bushing + equipment cover

BC-D01, BC-D02

Hotstick installation

Supplies

- Bushing cover, BC-D01, featured here
- Hotstick (not included)

Instructions

Hook and lock the hotstick through the eye screw.

Position the bushing cover into place over the energized equipment.

Adjust the fit by turning the eye screw clockwise until a tight fit has been achieved.

Installation is complete once the fit is confirmed to be tight.
