

Raptor Guard™ spike perching deterrents

RGSP-series

Super strap installation

Supplies

- Raptor Guard™ Spikes, RGSP-24-EC featured here
- Super strap banding, buckles and tightening tool (not included)

Instructions

Position the spike strip in place over the insulators on the top of the cross arm.

Position the straps between the appropriate spikes. Feed the strap through the buckle and hand tighten.

Use the super strap tightening tool to tighten each strap.

Cut the tails off of each strap. Leave a 2" tail on the strap to allow for tightening in the future.
